Monroe Bethea Monroe is a fictional character from the American drama television series The Vampire Diaries. Played by Keri Russell, Bethea first appeared on the series in the season three episode "The One That Got Away". Bethea is a rebellious vampire who later became part of the anti-vampire movement.

Characterization Bethea first arrives in Mystic Falls to take her true love, Patrick, and the two rebel against their vampire parents. The mother of the pair, Elena Gilbert (Nina Dobrev), decides to break up the couple and throw Bethea and Patrick out of the Gilbert house. While both Bethea and Patrick go to the Salvatore brothers Salvatore (Paul Wesley) and Stefan Salvatore (Paul Wesley) for help, the former rebels and the latter condone their parents decision. When the Gilbert brothers send the two out into the night, they are caught by the vampire hunter, Matt (Zach Roerig), and his friends. After they realize they can no longer go back to the house, they fight off their attackers. After the fight, they fall in love and run away together. However, the Gilbert's (especially Elena) do not approve of their relationship, as they see them as "abominations". Elena gives them money to leave town, and while trying to find Patrick, Bethea is attacked and killed by vampires, and Patrick is turned into a vampire.
